

Home Energy Survey

Please install the energy-saving measures from your free kit provided by Entergy and start conserving resources in New Orleans today. **Then fill out this form and return to your teacher at school.** By completing this form, you and your family are contributing to massive energy savings in your community and helping your school win a cash prize. You are also entered to win a \$200 cash drawing!

HOME CHECKUP

1. How is the water in your home heated?

(Hint: A natural gas water heater will have a gas line connected to the bottom with an "on/off" dial, and it will always have a circular tube connected to the top of the water heater and extends to the roof or out an external wall. An electric water heater will not have a gas line attached, only an electric cord plugged into an outlet, and without a flue.)

- Electricity
- Natural gas
- Propane or other method
- Don't know

2. What type of air conditioning unit do you have to cool your home?

- Central Air Conditioner
- Room Unit
- Evaporative Cooler
- Don't Have One

3. Which fuel is used as the main source of energy to heat your home? *(Hint: Your parent/guardian should know)*

- Natural Gas
- Electricity
- Heating Oil
- Wood
- Propane
- Other
