

# Program Overview

## We want YOU

To learn about democracy with a civics education program!

*Voice Your Vote* is performed by two professional actors who lead your students back in time on an adventure through American history, all while teaching about the importance of voting and civic responsibility.

In this 25-minute play, Ben Franklin and his associate, Abigail Gordon, are hard at work preparing the public for the upcoming elections – but there's trouble brewing across the Atlantic. Balthazar Crabtree, a henchman of King George III of England, has been sent to undermine America's newfound democracy! With the help of your students, will Ben and Abigail be able to stop Balthazar and protect the nation's right to vote?

Along with the in-school assembly, educational materials are provided to expand upon the content of the program.

## Educational Concepts

- The definition of voting
- When you can vote
- Why you should vote
- What you can vote for
